

Theistic Evolution A Sinful Compromise That's Destroying Christianity

Theistic evolution is the idea that God created the universe through the process of evolution. This idea is a compromise between the biblical account of creation and the scientific theory of evolution.

Theistic evolution is a dangerous compromise because it undermines the authority of the Bible. The Bible teaches that God created the universe in six days, not through a process of evolution. When Christians accept theistic evolution, they are essentially saying that the Bible is not true.

Theistic evolution also undermines the gospel message. The gospel message is that Jesus Christ died on the cross to pay for our sins. But if we believe that God created the universe through evolution, then we must also believe that death and suffering were part of God's plan. This makes it difficult to believe that Jesus' death was necessary to pay for our sins.

Theistic evolution is a dangerous compromise that is leading many Christians astray. This book exposes the errors of theistic evolution and provides a biblical defense of the six-day creation account.

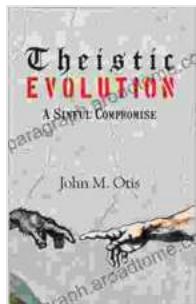

In this book, you will learn:

- The history of theistic evolution
- The scientific evidence against theistic evolution
- The biblical arguments against theistic evolution
- The dangers of theistic evolution
- How to defend the biblical account of creation

This book is a must-read for anyone who is interested in the truth about creation. It will equip you to defend the biblical account of creation and to

refute the errors of theistic evolution.
